WEDNESDAY, NOVEMBER 10, 1908.

In Kingfisher county Hankins got 75 votes.

HANKINS, the son, got twenty-six votes in Canadian county.

Doc AYARS, of Chandler, was elected treasurer of Lincoln county.

WM. TILGHMAN was beaten for sheriff in Lincoln county by 295 votes.

CANADIAN county gave Flynn 759 majority over Keaton. Hankins got 86 votes in the county.

THE Missouri Republicans know what it is to run up against the muscle of public opinion.

JOHN WANAMAKER has served notice on Matthew Stanley Quay that he is not through with him yet.

It is a notable fact that Thomas B. Reed was not in Wichita during the campaign just closed in Oklahoma.

DEAN FLYNN's majority over Keaton in Lincoln county is 977. Hankins got 79 votes in that county.

IN PAWNEE county Hankins got 29 votes, Flynn 1144, and Keaton 419. Flynn's majority over Keaton 732.

THE Times Journal says Hon. C. G. Jones has been put forward as the Republican candidate for speaker of the house.

THERE is one consolation to the fusionists—they don't have to tear their throats and rend their lungs over the election.

STUFFING the result of all personal considerations, the Democrats will not put on heavy mourning or seek the consolation imposed by monastic vows.

ISAAC THOMPSON accidentally shot himself through the breast with a Winchester, near Parkland, in Lincoln county, on the 11th. It is thought he cannot live.

THERE is "many a slip betwixt the cup and the lip," says the old adage. And there's many a vote that slips to the other fellow between the nomination and the election.

LOLD MINTO, the new governor general of Canada, has arrived and was sworn into office on the 13th at Quebec. Lord Aberdeen, his predecessor, and family left immediately for England.

THE next session of the Missouri legislature is the revising session, and the session is limited to 120 days. Under the constitution the laws passed by the legislature must be revised every ten years.

A KLOXIDNE woman named Crossup, the keeper of a dance house there, was recently drowned in crossing Controller bay. When her body was found the discovery was made that she had belted around her body \$114,000 in gold.

REASONING from cause to effect and from effect to cause, Dennis Flynn has reason to be thankful that the engagements of the Hon. Thomas B. Reed prevented him from repeating his visit to Wichita during the recent campaign.

MARK HANNA admits that the present tariff law will have to be revised and so must the war revenue measure. He strongly favors putting a duty on tea and coffee. He says the tax to support the government is now on the

people, and this in some instances, he says, is right. As Mark Hanna is not one of the people, these burdens give him but little worry.

A SCIENTIST has made the discovery that the two hemispheres of a man's brain do not operate simultaneously but alternate in action. This may account for so many men being so frequently on the off side of everything.

THE talk that Judge Strang would contest the election of Edgar W. Jones, for county attorney is not true, so the LEADER learns. Judge Strang is satisfied with the result and can find no grounds upon which to base such a contest.

Or course Dennis Flynn can be implicitly relied upon to do just what he told the people he would do. He will get them free homes and statehood, and any other little thing like that they ask him for. Of course he will. Who doubts it?

WAS IT AN ENDORSEMENT?

It is a difficult matter for the Republicans, and especially for the Republican national administration, to draw any particular inspiration from the returns of the election. Usually the complexion of the lower house of congress is accepted as an expression of the people regarding the administration in power. If this rule is correct, the loss of the Republican congressmen in the house cannot be accepted as an endorsement of the Republican party or the national administration even though the Republicans may be able to organize that body. In 1894 the Cleveland administration was rebuffed by the loss of the house to the Democrats, and the Republican journals throughout the country claimed it as a distinct victory over the policy of the administration, and the country acquiesced in the verdict, and while it may be that the Republicans shall be able to hold control of the house it will be by such a slender margin that it cannot be claimed as an endorsement of Mr. McKinley's home policy. There is no doubt of the fact that the successful ending of the war kept the Republican losses from being much greater than they were, for it is a difficult thing to disassociate the administration in the public mind from the result of the war, little as it may have contributed to that end or is entitled to special credit.

KANSAS POPULIST DEAD.

In Kansas it was the Cleveland Democrats who were the beneficiaries under that administration which aided most in the defeat of Gov. Leedy in the recent election. In 1892 these same Democrats were loudest in their advocacy of fusion that year. Many of them who lined up with Mr. Cleveland on the money question held on to their jobs under McKinley, and these, with their hangers-on, denounced in the recent campaign what they had so loudly advocated as a wise and sensible course in 1892.

It may safely be predicted that fusion on the lines heretofore obtaining in the Sunflower state is as dead as last year's herring. If Gov. Leedy is correctly quoted, he thus early sounds wisely what the situation will be in 1900. He is reported to have made the declaration, before he was nominated the last time, that there would be no fusion in 1900, and that there would be no one party, and that party would be the Democratic party. There is hardly a doubt that the governor's prediction will prove true, and the great national contest of 1900 will be fought out between the Republican and the Democratic parties. Another prominent Kansas Populist takes the same view, and believes that organization for this contest should begin right now.

REPUBLICAN PARTY IN POWER.

If the official returns from all the states shall confirm the reported figures of the congressional elections the Republicans apparently will have a slight majority in the lower house. This will give that party control of both houses of congress, and with the presidency, they will have undisputed control of the government, a thing that has not occurred to either party since 1874. Indeed, except the period between 1860 and 1874, this has not occurred since Andrew Jackson was president, when the congress elected in the midst of a presidential term was in both branches in full accord with the chief executive. For some years the senate has been pretty evenly balanced, but with the senators to

The only pills to take with Hood's Sarsaparilla.

be elected by the legislatures this winter the Republicans will have a working majority. Whether good or bad legislation congress shall enact, or good or bad the administration shall do, will alone belong to the Republican party and the Republican administration.

"BUFFALO" JONES, who went to the key regions of the north in search of muskoxen and other wild animals, has returned to Oklahoma after two years' absence. While Mr. Jones was not successful in the capture and bringing back with him the coveted wild animals, his experiences in the trackless regions of the north were worth all the hardship he endured.

DENNIS FLYNN told the people all over the territory that their votes would determine whether they wanted free homes or not. According to Dennis the people voted in favor of his proposition. Now let us see whether Dennis is in favor of the people.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. Cheney & Co., Toledo, Ohio. Sold by druggists, 75c.

WEATHERFORD.

The Western Terminus of the "Choctaw," Will Have a Railroad by October 30.

The western extension of the Choctaw railroad will be completed and trains running to and from Weatherford not later than October 30.

Weatherford is in the southeastern part of Custer county, Oklahoma territory, a distance by wagon road of about 35 miles southwest of Geary. It will command the trade of Custer, Washita, Roger Mills, Day and DeCade, nearly 100 miles square, besides a portion of Greer county and the Kiowa, Comanche, Caddo and Wichita reservations.

Weatherford is destined to make one of the most important towns in the territory. It affords openings for men in all kinds of business. No such opportunity anywhere in the Southwest. Weatherford has good well water and running water for stock, and will be a great cattle shipping point.

The railroad company has platted about 600 acres for the town site, and Weatherford, being the terminus of the road, will naturally be a railroad town. All who desire to get in on the ground floor, either for business or speculation, should call upon or address Mr. Beekesrick, town site manager, Weatherford, O. T.

In going to Weatherford take the Choctaw, Oklahoma & Gulf railroad. Daily trains run between Howe, on the Kansas City, Pittsburg & Gulf railroad, and El Reno, and between Oklahoma City and Geary, and after October 30 a daily passenger train will be run between Shawnee and Weatherford. Connections with the Choctaw railroad at Weatherford are made with the following lines of railroad:

With the Kansas City, Pittsburg & Gulf railroad at Howe, I. T.

With the St. Louis & San Francisco railroad at Wister, I. T.

With the Missouri, Kansas & Texas railroad at South McAlester, I. T.

With the Atchafalaya, Topeka & Santa Fe railway at Oklahoma City, O. T.

With the Chicago, Rock Island & Pacific railway at El Reno.

J. W. McLEOD, General solicitor.

In charge of town site.

J. F. HOLMES, Traffic Manager.

Added This Season.

Barber shop and ladies observation car only California limited via Santa Fe Route; service finer than ever before.

GUTHRIE, OKLAHOMA.

THE INVESTIGATION.

Dr. Weaver, after some important testimony.

Washington, Nov. 10.—The investigation was resumed today, continuing the examination of witnesses.

Dr. Weaver of the Ninth Pennsylvania volunteers was the first witness before the war commission, and he proved an important witness, as he gave detailed information concerning the actions of a regimental hospital at Camp Thomas.

Dr. Weaver testified that typhoid had broken out about the 15th of June, and that it had increased from that time until the 20th of August. There had been about 400 cases of this disease and about 200 deaths. He said there was an insufficient supply of drugs and that at times he failed to get what was needed. Quinine was one of the articles of which there had been a scarcity, and 100,000 pills were secured from him. He said that at one time there were 56 typhoid patients in the regimental hospital, because there was no accommodation for them in the division hospital. At another time there were 27 cases of fever in the company tents for whom admission could not be secured in any hospital, division or regimental. In summing up the cases of disease in the camp, Dr. Weaver included over work as one. The first revolve sounded at 4:30 and after that time, the men were kept quite constantly engaged with drills and other exercises until 6:15 notwithstanding the weather was intensely hot. He also expressed the opinion that the water from Chickamauga creek was polluted. He considered the water in this stream as hardly fit to bathe in, much less to drink. His opinion was that there were possible sources for contamination above the intake pipe of the pipe line system. The doctor admitted that he had never visited the stream at the pumping station.

WEAVER GETS RILED.

Dr. Weaver related his difficulties in securing tents for the hospital, and he said that in one case chief quartermaster Lee had refused to allow the regiment to have a tent which was stored and which was its property. Colonel Lee said the tent could not be taken out except in the proper military manner, but the regiment had never been able to ascertain what he required and had never secured the tent. The defect was supplied by taking the officer's mess tent for hospital purposes. In this connection, Governor Weaver expressed the opinion that this conduct on the part of Colonel Lee was an outrage, and he said the only mistake that the doctor and his colonel had made was that "they had not taken the colonel by the neck of the neck and kicked him out of the camp."

Dr. Weaver said he was the only surgeon on duty with his regiment. He had been on duty as long as forty-two hours at a time, but he had never made any complaint because it was generally known that the surgeons in the regiment were overworked.

The witness expressed the opinion that the hospital facilities should be furnished by the government, adding that not an article of property in his hospital had been thus supplied, the citizens of Pennsylvania buying beds, blankets, sheets, and all the food, ice and milk that had been sent there. They had expended \$2,000 on the hospital alone.

REGULAR SURGEON TESTIFIES.

Major Louis A. LaGuard, a regular army surgeon, who was in charge of the division hospital at Siboney, said the transports taking troops to Cuba, were overcrowded and the air was very fetid and hot. On his steamer, the Saratoga, thirteen cases of fever had developed going over. He had received his first patients on the first of July from Aguadon and El Caney, and by the fourth of July 60 or 50 patients had been received. The majority of them were shipped north as rapidly as possible.

The men sent north were supplied with all that could be spared, but the hospital authorities felt that those that went north, even though short of attendants and supplies, were taking fewer chances than those who remained, as yellow fever was even then beginning to make its appearance.

The orders were to send only such men as could wait upon themselves. He said he had obtained from the Red Cross society all that he had asked for. Miss Barton had apologized for not being able to supply more, saying that she had only expected to be called upon to aid the Cubans and not our own troops. However, she said that the soldiers should come first. Furthermore, Miss Barton supplied attendants for one of the hospitals. Dr. Leiser, of the Red Cross, being in charge. Here the physicians and nurses had developed yellow fever, proving that the house occupied had been infected. He had then had them removed and the building burned. The patients had protested against the removal, but he did not believe the transfer had hurt them.

The doctor said that as the patients at the hospital increased, he called for additional physicians, securing some from corps headquarters and also the aid of doctors of the navy, and also Cuban and Red Cross doctors. There was, however, a shortage of nurses, as the military necessities were such that it was impracticable to keep as many men at work in this capacity as were needed.

Referring to the transportation of troops north, Dr. LeGard said two physicians had been detailed to go on the Benes, as well as some nurses. He said if there were any very sick people placed on that vessel they were transferred from the hospital ship Relief, and this was done without his sanction or knowledge. Referring to the charge that the sick on the Benes had no change of clothing, he said he presumed this was true, as no body in Cuba seemed to have more than one suit of clothes.

Furthermore, the hospitals had no ice

to spare to the transports. Ice was a scarce article. The gentlemen of the press had furnished the chief supply to the institution.

Dr. Peck, the corps surgeon, had been misled by the assurance of the natives that there had been no yellow fever in the town of Siboney. Dr. LeGard had not concluded his testimony when the commission adjourned for the day.

Notice.

Taking effect November 15th, all freight rates from Missouri river points to Oklahoma points will be advanced. The rates to Guthrie after that date will be on 1st, 5c; 2nd, 3c; 3rd, 4c; 4th, 5c; 5th, 5c. Sugar, C. L. 44c; L. C. L. 53c. A. J. CONKINS, Agent.

Are you interested in an education, Shakespeare or music? Send your name to the editor of the Home Study Circle, Kansas City Times, and he will send you for a month, free, the Twice-a-week Times and an illustrated book let. This Home Study Circle is really one of the best, the very best, schools ever conducted. It is a young man or woman who follows the eight school course—there is a night school course in the circle—can gain an education befitting them for honorable positions anywhere. Given folk, especially ministers and literary people, will follow the Shakespearean lectures with keenest interest, while those who would know of Handel, Mozart, Mendelssohn, Haydn, Schubert, Beethoven and all the old masters, will delight to read the Musical Course. But send a postal to the editor of the Home Study Circle, Kansas City Times, Kansas City, Mo., and have him send you his book let which will tell all about it. Its an education for nothing.

From New Zealand.

REBETON, N. Z., Nov. 23, 1906. I am very much pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children. For sale by all druggists.

Stump Mercantile Co. are selling all kinds of goods cheaper than any other house in the city. Call on them.

Constipation prevents the body from ridding itself of waste matter. DeWitt's Little Early Risers will remove the trouble and cure Sick Headache, Biliousness, Indigestion, Liver and Bowel Complaints, Small, sugar coated, don't grip or cause nausea. J. W. Wheeler & Son.

Memphis, Tenn., Nov. 15.—James Richardson, the largest cotton planter in the world died suddenly tonight of heart disease near his residence at Rendoli, Miss.

MONTHLY
SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

McLEOD'S
Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle today?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. ROSENA LEWIS, of Louisville, Texas, writes: "I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."
